Submitting an Echo360 video to a Blackboard LMS Assignment

Blackboard Assignments can now accept Echo360 videos. Follow these instructions to submit an Echo360 video to a Blackboard Assignment.

**Submit an Echo360 video to the Assignment**

1. Log in to Blackboard as a student and navigate to your course.
2. Click on the relevant Assignment that you want to submit video for.
3. Click Write Submission as shown in the below figure.

4. Click on the Mashups icon in the Tool bar and choose Echo360 Video Library.

5. Scroll through the list (or use Search) to find the video you want to submit or alternatively, click on Upload Existing Media to upload any content not already present in your Echo360 library for submission to the assignment.

6. Select the video you want to embed. This expands the entry.

7. Click Insert to submit this video for the assignment.

A dialog box appears with the Echo360: Choose From My Home tab active, listing the videos you own within Echo360.

8. Enter any comments or other information/files relevant to the assignment.

9. When finished, click Submit.
